

The RSW Rescue Sled is fitted with extended tubes which provide its unique design. Based on the design of the standard Rescue Sled, it provides options for rescuing casualties from difficult situations such as weirs. Its design allows casualties to be pulled aboard through the wrap-around tubes, which provide protection and also stability when in the water.

Manufactured using tough Hypalon® materials, it comes with a 2 year limited manufacturers warranty and a 5 year limited material warranty for piece of mind. Hypalon fabric is resistant to abrasion and performs well in extreme temperatures both out and cold.

The sled can be inflated by using a hand pump or via a compressed air cylinder, with a regulator and inflation hose.

FEATURES

- Exceptionally tough and durable
- Easily launched into the surf zone for sea rescue, with a raised bow for improved performance in waves
- Rapid inflation and deployment
- Open stern for easy access and self-bailing
- Minimal training, servicing and maintenance costs
- D-rings front and rear for towing and line control
- Multiple carry & grab handles
- Grab-line

USED FOR

- Crisis rescue
- Flood rescue
- River rescue
- Flooded coastal and urban areas
- Casualty recovery

TECHNICAL DATA

RSW Rescue Sled

Product Code	WR0244
No. Of Persons	5 + 1
Length (cm)	500
Width (cm)	120
Internal Width (cm)	75
Floor Height (cm)	15
Tube Diameter (cm) - Ends	23
- Sides	45
Working Pressure - Buoyancy	3.25 psi
- Floor	6 psi
Max. Load (kg)	850
Air Requirements (ltr)	2000
Packed Size (cm)	80 (l) x 40 (w) x 35 (h)
Packed Weight (kg)	31.5

SUPPLIED WITH

- Valise
- Repair kit
- 1m delivery hose (for use with regulator)

OPTIONS

- 8 bar regulator
- Bravo electric inflater
- Bravo hand/foot pump
- Extra handles and 'D' rings
- T-handle paddles
